#### **EXHIBIT D**

#### PROFESSIONAL SERVICES SPECIAL TERMS AND CONDITIONS

- **1. <u>Definitions.</u>** The following words and phrases have the following meanings for purposes of this Agreement:
- 1.1 "Services" means, collectively, the services, duties and responsibilities described in Exhibit A of this Agreement and any and all work necessary to complete them or carry them out fully and to the standard of performance required in this Agreement.
- 1.2 "Deliverable" means quantifiable goods or services that will be provided upon completion of a project. A deliverable is any tangible material, work or thing delivered by one party to the other, including associated technical documentation. A deliverable can be tangible or intangible parts of the development process, and often are specified functions or characteristics of the project.
- **General.** The following terms and conditions are applicable for the Professional Services only. The special conditions shall be read in conjunction with the Standard Agreement, General Terms and Conditions ("GTC") Exhibit C, and all other Exhibits identified in the Standard Agreement.
- 2.1 Where any portion of the GTC is in conflict to or at variance with any provisions of the Special Conditions of the Agreement, then unless a different intention stated, the provision(s) of the Special Conditions of the Agreement shall be deemed to override the provision(s) of GTC only to the extent that such conflict or variations in the Special Conditions of the Agreement are not possible of being reconciled with the provisions of the GTC.
- 2.2 In the case of modification of a part or provision of the GTC, the unaltered part or provision, or both shall remain in effect. The Special Conditions shall relate to a particular project and be peculiar to that project but shall not weaken the character or intent of the GTC.
- 3. Ownership of Work. The conservation easement deed prepared for an Agricultural Conservation Easement transaction is recorded in the public records, creating perpetual restrictions on the land, running to and enforceable by California Farmland Trust; the prepared document is not owned by anyone. All supporting documents related to the Agricultural Conservation Easement acquisition and due diligence must be retained by California Farmland Trust in accordance with Land Trust Alliance requirements for accreditation and under legal considerations. For example, appraisals, environmental site assessments, and other due diligence reports must run to the benefit of California Farmland Trust as the holder of the Agricultural Conservation Easement and in its role as a public charity holding charitable assets. Often the consultants preparing reports retain

the copyright in these materials. City will not own any of these documents. California Farmland Trust will provide copies of any of these documents to the City on request.

- 3.1 Notwithstanding Exhibit C, Section 5 (Ownership of Work) and Exhibit D, Section 12, second sentence (Copyright), City acknowledges that the Agricultural Conservation Easement document and all related reports, work product, all other documents completed or partially completed by or for California Farmland Trust in performance of this Agreement, will be owned and retained by California Farmland Trust or the preparer of such report, as applicable.
- 4. <u>Termination.</u> In clarification of Exhibit C, Section 11 (Termination), if this Agreement is terminated by the City, then California Farmland Trust will return all funds then held by California Farmland Trust under this Agreement to the City, except those funds then held by California Farmland Trust and committed for an Agricultural Conservation Easement project then pending ("Committed Funds"). The terms and provisions of this Agreement will survive the termination with regard to all retained Committed Funds, including the requirement to expend the Committed Funds only as permitted under this Agreement and to perform all reporting obligations under this Agreement. If a pending commitment does not proceed after the termination of the contract, the related Committed Funds will be reclassed as uncommitted funds and returned to the City.
- **5.** <u>Licenses, Certifications, and Permits.</u> In clarification of Exhibit C, Section 17 (Licenses, Certifications, and Permits), the Contractor will not be required to obtain a business license as they are located outside of City limits, do not operate within the City of Stockton, and will be paying local business licensing taxes that apply within their jurisdiction.
- **6.** <u>Time for Performance.</u> Contractor shall perform the services according to the schedule contained in Exhibit F.
- 6.1 Timeliness of Performance i) Contractor shall provide the Services, and Deliverables within the term and within the time limits required under this Agreement, pursuant to the provisions of Exhibit A and Exhibit F. ii) Neither Contractor nor Contractor's agents, employees nor subcontractors are entitled to any damages from the City, nor is any party entitled to be reimbursed by the City, for damages, charges or other losses or expenses incurred by Contractor by reason of delays or hindrances in the performance of the Services, whether or not caused by the City.
- **7.** <u>Standard of Performance.</u> In addition to Exhibit C, Section 4 and 17, Contractor agrees as follows:
- 7.1 Contractor's Services shall be performed in accordance with generally accepted professional practices and principles and in a manner consistent with the level of care and skill ordinarily exercised by members of Contractor's profession currently

practicing under similar conditions. Contractor shall comply with the profession's standard of performance, applicable laws, regulations, and industry standards. By delivery of completed work, Contractor certifies that the work conforms to the requirements of this Agreement and all applicable federal, state and local laws. If Contractor is retained to perform services requiring a license, certification, registration or other similar requirement under California law, Contractor shall maintain that license, certification, registration or other similar requirement throughout the term of this Agreement.

- 7.2 Contractor acknowledges that it is entrusted with or has access to valuable and confidential information and records of the City and with respect to that information, Contractor agrees to be held to the standard of care of a fiduciary. Contractor shall assure that all services that require the exercise of professional skills or judgment are accomplished by professionals qualified and competent in the applicable discipline and appropriately licensed, if required by law. Contractor must provide copies of any such licenses. Contractor remains responsible for the professional and technical accuracy of all Services or Deliverables furnished, whether by Contractor or its subcontractors or others on its behalf. All Deliverables must be prepared in a form and content satisfactory to the Using Agency and delivered in a timely manner consistent with the requirements of this Agreement.
- 7.3 If Contractor fails to comply with the foregoing standards, Contractor must perform again, at its own expense, all Services required to be re-performed as a direct or indirect result of that failure. Any review, approval, acceptance or payment for any of the Services by the City does not relieve Contractor of its responsibility for the professional skill and care and technical accuracy of its Services and Deliverables. This provision in no way limits the City's rights against Contractor either under this Agreement, at law or in equity.

#### 8. <u>Compensation</u>

In addition to Section 3 Compensation in Exhibit C-GTC, the Contractor shall be compensated for the services provided under this Agreement as follows:

8.1 Contractor shall be compensated for services rendered and accepted under this Agreement and shall be paid monthly, in arrears on a not to exceed basis, based upon the rates set forth in Exhibit E attached hereto and made a part of this Agreement. Contractor may vary the compensation for each task in Exhibit E provided that the total project compensation listed in Exhibit E and the Standard Agreement is not exceeded.

#### 9. Personnel

Any work or services subcontracted hereunder shall be subject to each provision of this Agreement. Contractor shall provide subcontractor a copy of this fully executed Agreement.

- 9.1 Contractor agrees to assign only competent personnel according to the reasonable and customary standards of training and experience in the relevant field to perform services under this Agreement. Failure to assign such competent personnel shall constitute grounds for termination of this Agreement. The payment made to Contractor pursuant to this Agreement shall be the full and complete compensation to which Contractor and Contractor's officers, employees, agents, and subcontractors are entitled for performance of any work under this Agreement. Neither Contractor nor Contractor's officers or employees are entitled to any salary or wages, or retirement, health, leave or other fringe benefits applicable to employees of the City. The City will not make any federal or state tax withholdings on behalf of Contractor. The City shall not be required to pay any workers' compensation insurance on behalf of Contractor. Contractor shall pay, when and as due, any and all taxes incurred as a result of Contractor's compensation hereunder, including estimated taxes, and shall provide City with proof of such payments upon request.
- 9.2 Key Personnel: Because of the special skills required to satisfy the requirements of this Agreement, Contractor shall not reassign or replace key personnel without the written consent of the City, which consent the City will not unreasonably withhold. "key personnel" means those job titles and the persons assigned to those positions in accordance with the provisions of this Agreement. The City may at any time in writing notify Contractor that the City will no longer accept performance of Services under this Agreement by one or more Key Personnel listed. Upon that notice Contractor shall immediately suspend the services of the key person or persons and must replace him or them in accordance with the terms of this Agreement. A list of key personnel is found in Exhibit A, Scope of Services.

#### 10. Reports and Information

Contractor shall at such times and in such forms as the City may require furnish the City such periodic reports as it may request pertaining to the work or services undertaken pursuant to this Agreement, the costs and obligations incurred or to be incurred in connection therewith, and any other matters are covered by this Agreement as specified in Exhibit A and Exhibit E.

#### 11. Findings Confidential

All of the reports, information, data, et cetera, prepared or assembled by the Contractor under this Agreement are confidential and the Contractor agrees that they shall not be made available to any individual or organization without the prior written approval of the City. Contractor shall not be required under the provisions of this paragraph to keep confidential any data or information which is or becomes publicly available, is required by applicable law or by proper legal or governmental authority, is already rightfully in the Contractor's possession without obligation of confidentiality, is independently developed by Contractor outside the scope of this Agreement or is rightfully obtained from third parties. Contractor shall give City prompt notice of any such legal or

governmental demand and reasonably cooperate with City in any effort to seek a protective order or otherwise to contest such required disclosure.

#### 12. Copyright

No materials, including but not limited to reports, maps, or documents produced as a result of this Agreement, in whole or in part, shall be available to Contractor for copyright purposes. Any such materials produced as a result of this Agreement that might be subject to copyright shall be the property of the City and all such rights shall belong to the City, and the City shall be sole and exclusive entity who may exercise such rights.

#### 13. <u>Deliverables</u>

Contractor shall prepare or provide to the City various Deliverables. "Deliverables" include work product, such as written reviews, recommendations, reports and analyses, produced by Contractor for the City. The City may reject Deliverables that do not include relevant information or data, or do not include all documents or other materials specified in this Agreement or reasonably necessary for the purpose for which the City made this Agreement or for which the City intends to use the Deliverables. If the City determines that Contractor has failed to comply with the foregoing standards, it has 30 days from the discovery to notify Contractor of its failure. If Contractor does not correct the failure, or if it is possible to do so, within 30 days after receipt of notice from the City specifying the failure, then the City, by written notice, may treat the failure as a default of this Agreement. Partial or incomplete Deliverables may be accepted for review only when required for a specific and well-defined purpose and when consented to in advance by the City. Such Deliverables will not be considered as satisfying the requirements of this Agreement and partial or incomplete Deliverables in no way relieve Contractor of its commitments under this Agreement.

#### 14. Applicable Laws

Deliverables must conform with all applicable federal, state, and local laws. Such conformity includes compliance with federal sanctions, and Contractor certifies that it has not and will not engage in prohibited transactions with sanctioned persons or entities.

#### **EXHIBIT E**

#### **COMPENSATION SCHEDULE**

The Contractor shall be compensated as follows for services identified in Exhibit A, in addition to the compensation requirements contained in Exhibits C and D:

#### 1. Project Price

- 1.1 The project price paid to the Contractor shall be based on Agricultural Mitigation Fees collected from developers by the City of Stockton and then transferred to the Contractor on at least a quarterly basis. Nothing in this Agreement requires the City to pay for work that does not meet the Standard of Performance identified in Exhibit D section 7 or other requirements of this Agreement.

4	Program Contingencies	\$463
	PRICE PER ACRE	\$9,868

Contractor shall use that portion of the \$1,028, which is not needed to cover current administrative costs, to fund an endowment so that the interest earned will pay for ongoing monitoring of the easements.

Contractor shall only use the \$463 for unusual contingency costs that arise during administration and monitoring.

If the developer obtains an Agricultural Conservation Easement, the developer shall pay Contractor directly for any of their costs in overseeing the acquisition. The developer shall also pay Contractor the \$1,028 portion of the Fee to cover post-acquisition administration and monitoring of the easement.

	County

Weekly\*

1.2. Monitor and enforce the agricultural conservation easements

Weekly \*

Weekly\*

1.5. Submit an annual report to the City regarding services rendered and efforts toward securing agricultural conservation easements for the previous year.

Annually

\*ACE transactions are inherently complex and securing funding is challenging. When combined with the landowner's specific needs, desires, estate planning issues, and concerns, it becomes extremely difficult to predict when and where a project may materialize or to identify a definitive completion date. It is not uncommon to expend time and resources on an ACE project and subsequently have the landowner(s) decide not to proceed.

### City of Stockton Agricultural Mitigation Fee Program Annual Report

#### **BACKGROUND**

On February 27, 2007 the City of Stockton (City) passed a resolution amending the Public Facilities Fee Program Administrative Guidelines by adding provisions regarding an Agricultural Land Mitigation Program (Program), including an in-kind acquisition and in-lieu fee. The resolution provided, in part, that in the event in-lieu agricultural conservation fees were collected, the City could expend or transfer them to the Central Valley Farmland Trust (CVFT) or other qualifying entity.

The Program further delineates and relegated the agricultural conservation fees (Fees) to the following uses:

- 1. Pay for acquisition of agricultural mitigation lands (of equal or better quality to the land that is being converted) within the 'Central Zone' of San Joaquin County.
- 2. Pay for transaction costs related to the acquisition of agricultural mitigation lands.
- 3. Pay for ongoing monitoring and administrative costs related to the ongoing stewardship of agricultural mitigation lands.
- 4. Provide a contingency for unexpected transaction costs or future legal costs required to maintain the terms of an agricultural conservation easement.

On May 1, 2007 CVFT entered a Professional Services Contract (Contract) with the City (Exhibit A). The Contract delineated the parameters under which CVFT is to administer the Fees. CVFT will utilize the fees received to acquire agricultural conservation easements (ACEs) and or fee lands for protecting productive farmland within San Joaquin County. On May 1, 2017 the City approved a three-year extension of the Contract.

During the period of May 2007 and into early 2009 the Program was subject to pending litigation. During this period the City continued to collect Fees but did not release those Fees to CVFT. In early 2009 one lawsuit was settled and a separate lawsuit remained pending. On January 28, 2009 the City released an initial two million dollars (\$2,000,000) in Fees to CVFT.

On March 6, 2009 CVFT tendered a letter (Exhibit B) to the City to clarify how the Fees received will be allocated among the distinct functions set forth in the Contract. The City concurred with the allocations contained in the letter, which formed the basis for CVFT to receive, account for, and expend the Fees.

The initial per acre Fee amount was none thousand six hundred dollars (\$9,600). The Fee Schedule contained in the Contract provides for the following per acre allocation:

```
$7,750 - Easement acquisition
$400 - Transaction costs
$1,000 - Administration and monitoring
$450 - Contingencies
$9,600
```

On May 1, 2008 the City increased the per-acre Fee amount by 2.8% to a total of nine thousand eight hundred sixty-eight (\$9,868).

On May 1, 2017 CVFT signed a renewed Professional Services Agreement with the City with a per-acre Fee of nine thousand eight hundred sixty-eight (\$9,868). This amount was allocated as follows:

```
$7,966 - Easement acquisition
$411 - Transaction costs
$1,028 - Administration and monitoring
$463 - Contingencies
$9,868
```

#### **CURRENT YEAR STATUS**

From October 1, 2016 through September 30, 2017, CVFT received no Fees from the City.

The following identifies the total amount of accrued Fees received by CVFT from 2009 through September 30, 2017 and how the Fees were allocated:

```
$3,600,685.66 - Total Fees received/accrued

Less:

$ 222,398.50 - Administrative costs
$ 294,019.91 - Transaction costs
$2,023,800.51 - Acquisition costs
$ 245,611.03 - Monitoring and legal defense fund
$ 98,173.64 - Accrued Interest
$2,884,003.59 - Total Fees Allocation

$716,682.07 - Fees remaining (net cash on 9/30/2017)

Internally accounted for as follows:
$712,309.12 - Acquisition costs
$ 4,372.95 - Transaction, monitoring and legal defense
```

\$716,682.07 - Total

During the reporting period (10/1/16 - 9/30/17), no conservation easements (ACEs) were closed utilizing City fees. Currently, CVFT is actively working on five (5) agricultural conservation easements to protect nearly 900 acres of prime farmland in San Joaquin County.

CVFT utilizes mitigation fees from several jurisdictions within San Joaquin County. All fees must be spent within San Joaquin County and are allocated depending on availability and in accordance with the terms and conditions contained in the formal working agreements with the respective jurisdictions.

CVFT leverages the Fees by utilizing additional funding sources to acquire ACEs and pay transaction and monitoring costs. In addition to mitigation fees received from other jurisdictions (eg., Manteca, Tracy, and Lathrop), CVFT has utilized acquisition grant funding from the California Department of Conservation and the USDA's Natural Resource Conservation Service.

ACE transactions are inherently complex and securing funding is problematic. When combined with the landowner's specific needs, desires, estate planning issues, and concerns, it becomes extremely difficult to project when and where a project may materialize or to identify a definitive completion date. It is also not uncommon to expend time and resources on ACE projects and subsequently determine the landowner(s) has decided not to proceed. Early in the process of each ACE transaction, CVFT works diligently with the landowner(s) to discuss the implications of placing an ACE and to set realistic expectations prior to expending substantive transaction costs.

- 1. Pay for acquisition of agricultural mitigation lands (of equal or better quality to the land that is being converted) within the 'Central Zone' of San Joaquin County.
- 2. Pay for transaction costs related to the acquisition of agricultural mitigation lands.
- 3. Pay for ongoing monitoring and administrative costs related to the ongoing stewardship of agricultural mitigation lands.
- 4. Provide a contingency for unexpected transaction costs or future legal costs required to maintain the terms of an agricultural conservation easement.

On May 1, 2007, CFT entered a Professional Services Contract (Contract) with the City. The Contract delineated the parameters under which CFT is to administer the Fees. CFT will utilize the Fees received to acquire agricultural conservation easements (ACEs) and or fee lands for protecting productive farmland within San Joaquin County. On May 1, 2017, the City approved a three-year extension of the Contract (Exhibit A).

During the period of May 2007 and into early 2009 the Program was subject to pending litigation. During this period the City continued to collect Fees but did not release those Fees to CFT. In early 2009 one lawsuit was settled, and a separate lawsuit remained pending. On January 28, 2009 the City released an initial two million dollars (\$2,000,000) in Fees to CFT.

On March 6, 2009 CFT tendered a letter (Exhibit B) to the City to clarify how the Fees received will be allocated among the distinct functions set forth in the Contract. The City concurred with the allocations contained in the letter, which formed the basis for CFT to receive, account for, and expend the Fees.

On May 1, 2017, CFT signed a renewed Professional Services Agreement with the City with a per-acre Fee of nine thousand eight hundred sixty-eight (\$9,868). This amount was allocated as follows:

\$7,966 - Easement acquisition \$ 411 - Transaction costs \$1,028 - Administration and monitoring \$ 463 - Contingencies \$9,868

#### **CURRENT YEAR STATUS**

From October 1, 2017 through September 30, 2018, CFT received no Fees from the City.

The following identifies the total amount of accrued Fees received by CVFT from 2009 through September 30, 2018 and how the Fees were allocated:

\$3,600,685.66 - Total Fees received/accrued

Less:

\$ 222,398.50 - Administrative costs

\$ 294,019.91 - Transaction costs

\$2,023,800.51 - Acquisition costs

\$ 245,611.03 - Monitoring and legal defense fund

\$ 98,173.64 - Accrued Interest

\$2,884,003.59 - Total Fees Allocation

\$716,682.07 - Fees remaining (net cash on 9/30/2018)

Internally accounted for as follows:

\$712,309.12 - Acquisition costs

\$ 4,372.95 - Transaction, monitoring and legal defense

\$716,682.07 - Total

During the reporting period (10/1/17 - 9/30/18), no conservation easements (ACEs) were closed utilizing City Fees. CFT did close one ACE on July 3, 2018, consisting of 84 acres of farmland located in the eastern part of the County and is actively working on four (4) agricultural conservation easements to protect over 850 acres of prime farmland in San Joaquin County.

CFT utilizes mitigation Fees from several jurisdictions within San Joaquin County. All fees must be spent within San Joaquin County and are allocated depending on availability and in accordance with the terms and conditions contained in the formal working agreements with the respective jurisdictions.

CFT leverages the Fees by utilizing additional funding sources to acquire ACEs and pay transaction and monitoring costs. In addition to mitigation Fees received from other jurisdictions (eg., Manteca, Tracy,

and Lathrop), CFT has utilized acquisition grant funding from the California Department of Conservation and the USDA's Natural Resource Conservation Service.

ACE transactions are inherently complex and securing funding is problematic. When combined with the landowner's specific needs, desires, estate planning issues, and concerns, it becomes extremely difficult to project when and where a project may materialize or to identify a definitive completion date. It is also not uncommon to expend time and resources on ACE projects and subsequently determine the landowner(s) has decided not to proceed. Early in the process of each ACE transaction, CFT works diligently with the landowner(s) to discuss the implications of placing an ACE and to set realistic expectations prior to expending substantive transaction costs.

### City of Stockton Agricultural Mitigation Fee Program Annual Report

### **Background**

On February 27, 2007 the City of Stockton (City) passed a resolution amending the Public Facilities Fee Program Administrative Guidelines by adding provisions regarding an Agricultural Land Mitigation Program (Program), including an in-kind acquisition and in-lieu fee. The resolution provided, in part, that in the event in-lieu agricultural conservation fees were collected, the City could expend or transfer them to the Central Valley Farmland Trust, now known as the California Farmland Trust (CFT), or other qualifying entity.

The Program further delineates and relegated the agricultural conservation fees (Fees) to the following uses:

- 1. Pay for acquisition of agricultural mitigation lands (of equal or better quality to the land that is being converted) within the 'Central Zone' of San Joaquin County.
- 2. Pay for transaction costs related to the acquisition of agricultural mitigation lands.
- 3. Pay for ongoing monitoring and administrative costs related to the ongoing stewardship of agricultural mitigation lands.

RE: Agricultural Mitigation Fee Program Annual Report for the Period of October 1, 2019 – September 30, 2020

Dear Mr. Diaz,

I am sharing with you and your City Council members for your review and consideration the Agricultural Mitigation Fee Program Annual Report for the period ending September 30, 2020.

The California Farmland Trust has been busy in 2020. We currently have seven conservation projects in process, and we are seeking funding for three additional projects. We have over 25 applications from interested landowners who have lands that meet our selection criteria and we are waiting for funding opportunities.

As you know, California Farmland Trust seeks to protect California's best tracts of farmland and to steward those easements in perpetuity. It is the overarching mission to perpetuate the California Farmland Trust as an organization. This year, our board of directors has embarked on a perpetuity study to better understand the possible impacts of existing regulatory programs, new policies and legislation on California's farmland viability. The study is looking at three areas of interest, 1) what other appropriate mechanisms are there, if any, to meet its mission of helping farmers protect the best farmland in the world; 2) understanding how existing and new policies and legislation, climate change, and urban pressures impact the viability of agriculture; 3) is the California Farmland Trust adequately structured, funded and operated to continue to exist and oversee its conservation easement portfolio, forever. The board has begun this process and will complete its study by the fall of 2021. We plan to make those findings available to you and your Council.

As part of the annual reporting, I offer you and your members of the City Council a presentation of this report at an upcoming Council meeting. Do not hesitate to call or email to schedule a convenient time. Phone: 916-544-2712 and email: <a href="mailto:cmitchell@cafarmtrust.org">cmitchell@cafarmtrust.org</a>.

I am sharing with you and your City Council members for your review and consideration the Agricultural Mitigation Fee Program Annual Report for the period ending September 30, 2021.

California Farmland Trust works with willing landowners who wish to protect their farmland with a farmland conservation easement. We seek to protect California's best tracts of farmland and steward those easements in perpetuity. As I reported to you last year, our board of directors has been working on perpetuity planning to ensure the continued success of our organization. Since last year, the board has furthered its work around this topic, including committee and governance training for our volunteer leaders. Our next steps will be a five-year strategic plan and long-term planning goals.

In addition, the California Farmland Trust continues to find ways to operate more efficiently and effectively while providing the highest customer service and fiscal responsibility. The coronavirus pandemic has proven our staff is just as effective and efficient working remotely than in the office. In that spirit, earlier this year, we moved our offices to a slightly smaller and more cost-effective location to allow for a hybrid model of working.

In 2020-21 we closed five farmland conservation easements and currently have over 6,100 acres of viable farmland and eager landowners to pursue the protection of their land with a farmland easement. Our biggest hurdle is funding for these projects, as we use a combination of grant funds and other matching funds from sources like the City of Stockton. The average farmland conservation easement value is currently \$11,970.00 per acre, including an amount dedicated to perpetuating the long-term stewardship of those easements.

Lastly, as part of the annual reporting, I offer to you and your members of the City Council a presentation of this report at an upcoming Council meeting. Do not hesitate to call or email to schedule a convenient time. Phone: 916-544-2712 and email: cmitchell@cafarmtrust.org.

On May 1, 2017, the City approved a three-year extension of the Contract (Exhibit A).

During the period of May 2007 and into early 2009, the Program was subject to pending litigation. During this period, the City continued to collect Fees but did not release those Fees to CFT. In early 2009 one lawsuit was settled, and a separate lawsuit remained pending. On January 28, 2009 the City released an initial two million dollars (\$2,000,000) in Fees to CFT.

On March 6, 2009 CFT tendered a letter (Exhibit B) to the City to clarify how the Fees received will be allocated among the distinct functions set forth in the Contract. The City concurred with the allocations contained in the letter, which formed the basis for CFT to receive, account for, and expend the Fees.

On May 1, 2017, CFT signed a renewed Professional Services Agreement with the City with a per-acre Fee of Nine Thousand Eight Hundred Sixty-Eight Dollars (\$9,868). This amount was allocated as follows:

\$7,966 - Easement acquisition \$ 411 - Transaction costs \$1,028 - Administration and monitoring \$ 463 - Contingencies \$9,868

A new Standard Agreement was signed by CFT for the term beginning October 1, 2022, through September 30, 2024. The Agreement has yet to be fully executed by the City.

# **Current Reporting Year 2021-22**

As of September 30, 2021, the Fees internally allocated for project development and acquisition totaled \$2,627,984.88. The total lifetime fees collected from the City were \$5,917,741.25.

From October 1, 2021 through September 30, 2022, CFT received the following Fees from the City.

DATE RECVD	CHECK #	CHECK AMOUNT
11/17/2021	20009512	\$ 71,871.07

08/31/2022	20018236	\$ 46,213.44
	Total Fee received	\$ 1,122,087.03

The following identifies the total amount of accrued Fees and project expenses from 2009 through September 30, 2022:

\$ 7,039,828.28	Total Fees Collected
\$ (2,024,800.51)	Acquisition cost
\$ (355,200.35)	Transaction cost

\$ (245,611.03)	Monitoring cost
\$ 3,570,034.52	Total Fees Collected less Total Project

Internally accounted for as follows:

\$ 3,483,797.48 - Acquisition costs \$ 86,237.04 - Transaction, monitoring and legal defense \$ 3,570,034.52 - Total

CFT maintains the funds in a liquid and conservative investment account managed by Merrill Lynch.

During the reporting period (10/1/21 - 9/30/22), two conservation easements (ACEs) were closed utilizing City fees. These two projects totaled 246 acres.

CFT is in process of developing four easement projects in the County for a potential closing in 2025-26. Overall, CFT had a successful year protecting close to 900 acres throughout the Central Valley and actively working on five other agricultural conservation easement projects in its service area.

### **Funding Background**

CFT utilizes mitigation Fees from several jurisdictions within San Joaquin County. All fees must be spent within San Joaquin County and are allocated depending on availability and in accordance with the terms and conditions contained in the formal working agreements with the respective jurisdictions.

CFT leverages the Fees by utilizing additional funding sources to acquire ACEs and pay transaction and monitoring costs. In addition to mitigation Fees received from other jurisdictions (eg., Manteca, Tracy, and Lathrop), CFT has utilized acquisition grant funding from the California Department of Conservation and the USDA's Natural Resource Conservation Service.

ACE transactions are inherently complex and securing funding is problematic. When combined with the landowner's specific needs, desires, estate planning issues, and concerns, it becomes extremely difficult to project when and where a project may materialize or to identify a definitive completion date. It is also not uncommon to expend time and resources on ACE projects and subsequently determine the landowner(s) has decided not to proceed. Early in the process of each ACE transaction, CFT works diligently with the landowner(s) to discuss the implications of placing an ACE and to set realistic expectations prior to expending substantive transaction costs.
