

## **SETTLEMENT AGREEMENT AND RELEASE**

This Settlement Agreement and Release of All Claims (“Agreement”) is entered into by and between the Sierra Club, a California nonprofit public benefit association, the City of Stockton (“City”), a municipal services corporation, and Greenlaw Development, LLC, a California limited liability company (“Developer”), (collectively referred to as “Parties” or singularly “Party”), to terminate fully and finally all disputes concerning the matters set forth below.

### **RECITALS**

WHEREAS, Developer, proposes to develop an approximately 203-acre site in the South Stockton area commonly known as the Mariposa Industrial Park for light industrial land uses (the “Project”). The conceptual site plan proposes construction and operation of 3,616,870 square feet of warehouse and ancillary office uses, approximately 1,831 auto parking spaces, 1,107 truck and trailer parking spaces, and related infrastructure. Developer has applied to the City for the following project approvals: (1) adoption of a Resolution certifying the Mariposa Industrial Park Environmental Impact Report (SCH #2020120283) (“EIR”), including a Statement of Overriding Considerations, and adoption of a Mitigation Monitoring and Reporting Program (“MMRP”); and (2) adoption of an Ordinance for the Pre-zoning of APNs 179-220-10; -11; -12; -13; -16; -17; -18-; 19; and -24 (the “Property”) to Industrial, Limited (IL); and (3) adoption an Ordinance for a Development Agreement; and (4) adoption of a Resolution authorizing the filing of an annexation application with the San Joaquin Local Agency Formation Commission (collectively the “Project Approvals”); and

WHEREAS, The Sierra Club and the California Attorney General submitted comments on the EIR requesting that additional air quality and other mitigation measures be included in the EIR and MMRP for the Project and that a fund to mitigate impacts on affected residents be created; and

WHEREAS, the Parties wish to resolve fully and finally all disputes which may exist between the Parties concerning the Project Approvals.

NOW, THEREFORE, based upon the foregoing recitals and the terms, conditions, covenants, and agreements contained above and incorporated in full below, the Parties agree as follows:

### **AGREEMENT**

For good and valuable consideration, the receipt of which is acknowledged by each Party hereto, the Parties promise and agree as follows:

1. If the City approves the Project, and (i) the certified EIR and adopted MMRP include all of the Mitigation Measures in the attached Mariposa Industrial Project Enhanced Measures, and (ii) the authorized Development Agreement includes all of the revised terms in the attached Mariposa Industrial Project Enhanced Measures, then (iii) neither the Sierra Club nor any of its affiliates will file any complaints, claims, grievances, special proceedings or any other actions against the City or Developer with any state,

federal, or local agency or court challenging the Project Approvals or the proposed annexation of the Project site to the City of Stockton. If an affiliate of the Sierra Club is determined to have made a challenge to the Project Approvals or the proposed annexation of the Project site to the City of Stockton in violation of this Section 1, such violation shall constitute a breach of this Agreement by the Sierra Club.

2. The City will draft and consider a comprehensive Warehouse Sustainability Ordinance for future projects that establishes development standards for the construction of industrial warehousing and distribution facilities that exceed 100,000 square feet subject to periodic review for consistency with current regulatory agency recommendations before December 31, 2023. The City may incorporate the addition of warehouse sustainability requirements through its current Development Code revision/update process, provided that the ordinance is considered before December 31, 2023. City staff shall recommend adoption of the ordinance.
3. The City agrees that the Mitigation Measures in the attached Mariposa Industrial Project Enhanced Measures are designed to mitigate potentially significant environmental impacts of warehouse projects. If, prior to adopting the Warehouse Sustainability Ordinance, the City considers approving a project that proposes to develop industrial warehousing or distribution facilities that exceed 100,000 square feet, the City shall include all such applicable measures from the Mariposa Industrial Project Enhanced Measures in any Environmental Impact Report or Mitigated Negative Declaration for the project and consider requiring the project to comply with them.
4. Developer agrees to comply with the attached Mariposa Industrial Project Enhanced Measures and will comply with all applicable City building code requirements.
5. If the City approves the Project, the City will coordinate with the County of San Joaquin to develop and install signage prohibiting non-emergency vehicle access to the project site from Clark Drive or Marfargoa Road. Developer will be responsible for the costs of signage determined to be appropriate by the City and the County.
6. Developer shall pay Sierra Club \$34,350 as reimbursement for Sierra Club's attorney's fees and costs incurred in the administrative phase of the Project Approvals. Payment shall be made to the Shute, Mihaly & Weinberger LLP trust account. Developer shall make this payment within ten (10) days of the expiration of the statute of limitations set forth in Section 21167 of the Public Resources Code on actions or proceedings to attack, review, set aside, void, or annul the City of Stockton's determination of CEQA compliance for the Project Approvals, provided that no such action or proceeding has been initiated by the Sierra Club or its affiliates.
7. This Agreement shall be effective and binding upon the Parties only after the execution of both (1) this Agreement by all parties, and (2) the execution of a Memorandum of Understanding between the California Attorney General and the City relating to the City considering an ordinance to establish development standards for industrial warehouse land uses.

## 8. Miscellaneous.

- a. **Exclusive Remedies.** The Parties' sole and exclusive remedy for breach of this Agreement shall be an action for specific performance or injunction. In no event shall any Party be entitled to monetary damages for breach of this Agreement. In addition, no legal action for specific performance or injunction shall be brought or maintained until: (a) the non-breaching Party provides written notice to the breaching Party which explains with particularity the nature of the claimed breach, and (b) within thirty (30) days after receipt of said notice, the breaching Party fails to cure the claimed breach or, in the case of a claimed breach which cannot be reasonably remedied within a thirty (30) day period, the breaching Party fails to commence to cure the claimed breach within such thirty (30) day period, and thereafter diligently complete the activities reasonably necessary to remedy the claimed breach.
- b. All notices and other communications required to be provided pursuant to this Agreement shall be by electronic mail and by first class mail to the following persons at the following addresses:

- c. **Binding on Successors.** The terms, covenants, and conditions of this Agreement shall be binding upon and shall inure to the benefit of the heirs, executors, administrators, successors and assignees of the respective Parties. Developer shall record a copy of this Agreement against the Property. Developer will provide a copy of the recorded Agreement to Sierra Club within fifteen (15) days of such recording. The Parties shall give notice to all other Parties of any successor or assignee to the Party.

- d. **Non-Admission of Liability.** The Parties acknowledge and agree that this Agreement is a settlement of disputed claims. Neither the fact that the Parties have settled nor the terms of this Agreement shall be construed in any manner as an admission of any liability by any Party.
- e. **Assistance of Counsel.** The Parties each specifically represent that they have consulted to their satisfaction with and received independent advice from their respective counsel prior to executing this Agreement concerning the terms and conditions of this Agreement.
- f. **Waiver.** Failure to insist on compliance with any term, covenant or condition contained in this Agreement shall not be deemed a waiver of that term, covenant or condition, nor shall any waiver or relinquishment of any right or power contained in this Agreement at any one time or more times be deemed a waiver or relinquishment of any right or power at any other time or times.
- g. **Severability.** Should any portion, word, clause, phrase, sentence or paragraph of this Agreement be declared void or unenforceable, such portion shall be considered independent and severable from the remainder, the validity of which shall remain unaffected.
- h. **Governing Law and Venue.** This Agreement is made and entered into in the State of California, and shall in all respects be interpreted, enforced and governed under the laws of said State without giving effect to conflicts of laws principles. Any action to enforce, invalidate, or interpret any provision of this Agreement shall be brought in San Joaquin County Superior Court.
- i. **Entire Agreement.** This Agreement constitutes the entire agreement between the Parties who have executed it and supersedes any and all other agreements, understandings, negotiations, or discussions, either oral or in writing, express or implied between the Parties to this Agreement. No representation, inducement, promise, agreement or warranty not contained in this Agreement, including, but not limited to, any purported supplements, modifications, waivers, or terminations of this Agreement shall be valid or binding, unless executed in writing by all of the Parties to this Agreement.
- j. Each of the signatories hereto represents and warrants that he or she is competent and authorized to enter into this Agreement on behalf of the Party for whom he or she purports to sign.
- k. **Counterparts.** This Agreement may be executed in multiple counterparts, each of which shall be considered an original but all of which shall constitute an agreement.

**The Final EIR Mitigation Measures will be revised to include the following:**

AMM AIR-1: Solar Power: Owners, operators or tenants shall include with the building permit application, sufficient solar panels to provide power for the operation's base power use at the start of operations and as base power use demand increases. Project sponsor shall include analysis of (a) projected power requirements at the start of operations and as base power demand increases corresponding to the implementation of the "clean fleet" requirements, and (b) generating capacity of the solar installation.

AMM AIR -1 (continued): CDD shall verify the size and scope of the solar project based upon the analysis of the projected power requirements and generating capacity as well as the available solar panel installation space. The photovoltaic system shall include a battery storage system to serve the facility in the event of a power outage to the extent required by the 2022 or later California Building Standards Code.

AMM AIR -1 (continued): In the event sufficient space is not available on the subject lot to accommodate the needed number of solar panels to produce the operation's base or anticipated power use, the applicant shall demonstrate how all available space has been maximized (e.g., roof, parking areas, etc.). Areas which provide truck movement may be excluded from these calculations unless otherwise deemed acceptable by the supplied reports.

AMM AIR -1 (continued): The developer or tenant, or qualified solar provider engaged by the developer or tenant shall timely order all equipment and shall install the system when the City has approved building permits and the necessary equipment has arrived. The developer or tenant shall commence operation of the system when it has received permission to operate from the utility. The photovoltaic system owner shall be responsible for maintaining the system(s) at not less than 80% of the rated power for 20 years. At the end of the 20-year period, the building owner shall install a new photovoltaic system meeting the capacity and operational requirements of this measure, or continue to maintain the existing system, for the life of the project.

MARIPOSA INDUSTRIAL PROJECT  
ENHANCED MEASURES

<p>EMM AIR-1: Prior to the issuance of the first building permit, the applicant/developer shall demonstrate compliance with the SJVAPCD Rule 9510 (Indirect Source Review) to reduce growth in both NOx and PM10 emissions, as required by SJVAPCD and City requirements.</p>
<p>AMM AIR-1: Architectural Coatings: Construction plans shall require that architectural and industrial maintenance coatings (e.g., paints) applied on the project site shall be consistent with a VOC content of &lt;10 g/L. Developer or tenant is not expected to exercise control over materials painted offsite by a third party.</p>
<p>AMM AIR-3: Construction Worker Trip Reduction: Project construction plans and specifications will require contractor to provide transit and ridesharing information for construction workers.</p>
<p>AMM AIR-2: SJVAPCD Regulation VIII Compliance: Construction plans and specifications shall include a Dust Control Plan incorporating the applicable requirements of Regulation VIII, which shall be submitted to the SJVAPCD for review and approval prior to beginning construction in accordance with the requirements of Regulation VIII.</p>
<p>AMM AIR -2: Emission Standards for Heavy-Duty Trucks: The following mitigation measures shall be implemented during all on-going business operations and shall be included as part of contractual lease agreement language to ensure the tenants/lessees are informed of all on-going operational responsibilities.</p> <p>The property owner/tenant/lessee shall ensure that all heavy-duty trucks (Class 7 and 8) domiciled on the project site are model year 2014 or later from start of operations and shall expedite a transition to zero-emission vehicles, with the fleet fully zero-emission by December 31, 2025 or when commercially available for the intended application, whichever date is later.</p> <p>A zero-emission vehicle shall ordinarily be considered commercially available if the vehicle is capable of serving the intended purpose and is included in California's Hybrid and Zero-Emission Truck and Bus Voucher Incentive Project, <a href="https://californiahip.org/">https://californiahip.org/</a> or listed as available in the US on the Global Commercial Vehicle Drive to Zero inventory,</p>

MARIPOSA INDUSTRIAL PROJECT  
ENHANCED MEASURES

<https://globaldrivetozero.org/>. The City shall be responsible for the final determination of commercial availability, based on all the facts and circumstances at the time the determination is made, and may (but is not required to) consult with the California Air Resources Board before making such final determination. In order for the City to make a determination that such vehicles are commercially unavailable, the operator must submit documentation from a minimum of three (3) EV dealers identified on the [californiahvip.org](http://californiahvip.org) website demonstrating the inability to obtain the required EVs or equipment needed within 6 months.

"Domiciled at the project site shall mean the vehicle is either (i) parked or kept overnight at the project site more than 70% of the calendar year or (ii) dedicated to the project site (defined as more than 70% of the truck routes (during the calendar year) that start at the project site even if parked or kept elsewhere)

Zero-emission heavy-duty trucks which require service can be temporarily replaced with model year 2014 or later trucks. Replacement trucks shall be used for only the minimum time required for servicing fleet trucks.

**AMM AIR-3: Zero Emission Vehicles:** The property owner/tenant/lessee shall utilize a "clean fleet" of vehicles/delivery vans/trucks (Class 2 through 6) as part of business operations as follows: For any vehicle (Class 2 through 6) domiciled at the project site, the following "clean fleet" requirements apply: (i) 33% of the fleet will be zero emission vehicles at start of operations, (ii) 65% of the fleet will be zero emission vehicles by December 31, 2023, (iii) 80% of the fleet will be zero emission vehicles by December 31, 2025, and (iv) 100% of the fleet will be zero emission vehicles by December 31, 2027.

"Domiciled at the project site" shall mean the vehicle is either (i) parked or kept overnight at the project site more than 70% of the calendar year or (ii) dedicated to the project site (defined as more than 70% of the truck routes (during the calendar year) that start at the project site even if parked or kept elsewhere).

Zero-emission vehicles which require service can be temporarily replaced with alternate vehicles. Replacement vehicles shall be used for only the minimum time required for servicing fleet vehicles.

The property owner/tenant/lessee shall not be responsible to meet "clean fleet" requirements for vehicles used by common carriers operating under their own authority that provide delivery services to or from the project site.

MARIPOSA INDUSTRIAL PROJECT  
ENHANCED MEASURES

AMM AIR-4: Demonstrate Compliance with Clean Fleet Requirements: The applicant, property owner, tenant, lessee, or other party operating the facility (the "Operator") shall utilize the zero emission vehicles/trucks required to meet the "clean fleet" requirements in AMM AIR-2 (for Class 7 and 8 vehicles) and AMM AIR-3 (for Class 2 through 6 vehicles) above. Within 30-days of occupancy, the Operator shall demonstrate to the satisfaction of CDD staff, that the applicable clean fleet requirements are being met.

AMM AIR-4 (continued): In the event that vehicles/trucks are not commercially available for the intended application, the "clean fleet requirements" may be adjusted as minimally as possible by the CDD to accommodate the unavailability of commercially available vehicles/trucks.

AMM AIR 4 (continued) The City shall quantify the air pollution and GHG emissions resulting from any modification of this condition. Within 12 months of failing to meet a "clean fleet" requirement the property owner/tenant/lessee shall implement a Voluntary Emissions Reduction Agreement (VERA) providing pound for pound mitigation of the criteria pollutant, toxic air contaminants, and GHG emissions quantified by the City through a process that develops, funds, and implements emission reduction projects, with the Air District serving a role of administrator of the emission reduction projects and verifier of the successful mitigation effort. The VERA shall prioritize projects in the South Stockton and surrounding area. Property owner/tenant/lessee shall continue to fund the VERA each year in an amount necessary to achieve pound for pound mitigation of emissions resulting from not meeting the clean fleet requirements until the owner/tenant/lessee fully complies.

AMM AIR-4 (continued): The Operator shall implement the proposed measures after CDD review and approval. Any extension of time granted to implement this condition shall be limited to the shortest period of time necessary to allow for 100% electrification under the clean fleet requirements. The CDD staff may seek the recommendation of the California Air Resources Board in determining whether there has been a manufacturing disruption or insufficient vehicles/trucks commercially available for the intended application.

AMM AIR-4 (continued): Construction Meal Destinations: Project construction plans and specifications will require the contractor to establish one or more locations for food or catering truck service to construction workers and to cooperate with food service providers to provide consistent food service.

AMM AIR-5: Condition of Approved Compliance Report: The Operator shall submit a condition of approval compliance report within 30 days of, but not later than, the following dates: December 31, 2023, December 31, 2025, and December 31, 2027. The report shall outline clean fleet requirements applicable at each report interval and include documentation demonstrating compliance with each requirement. The City shall consider each report at a noticed public hearing and determine whether the Operator has complied with the applicable clean fleet requirements. If the Operator has not met each 100% clean fleet requirement by December 31, 2027, then the Operator shall submit subsequent reports every year until the 100% clean fleet requirement is implemented. The City shall consider each subsequent report at a noticed public hearing and determine whether the Operator has complied with the clean fleet requirements, including any minimal adjustments to the requirements by the CDD to accommodate the manufacturing disruption or unavailability of commercially available vehicles/trucks, as described in the previous paragraph. Notice of the above hearings shall be provided to all properties located within 1,000 feet of the project site and through the ASK Stockton list serve.

AMM AIR-5 (continued): After the 100% clean fleet requirement has been implemented and confirmed by the CDD, the Operator shall submit to the CDD an on-going compliance report every three years containing all necessary documentation to verify that the Operator is meeting the clean fleet requirements. At the time it confirms that the 100% clean fleet requirement has been implemented, the CDD will establish the due date for the first on-going compliance report. Each subsequent on-going compliance report shall be due within 30 days of, but not later than, the three-year anniversary of the preceding due date. The on-going compliance reports and accompanying documentation shall be made available to the public upon request.

AMM AIR-6: Zero Emission Forklifts, Yard trucks and Yard Equipment: Owners, operators or tenants shall require all forklifts, yard trucks, and other equipment used for on-site movement of trucks, trailers and warehoused goods, as well as landscaping maintenance equipment used on the site, to be electrically powered or zero-emission. The owner, operator or tenant shall provide on-site electrical charging facilities to adequately service electric vehicles and equipment

AMM AIR-7: Truck Idling Restrictions: Owners, operators or tenants shall be required to make their best effort to restrict truck idling onsite to a maximum of three minutes, subject to exceptions defined by CARB in the document: *commercial\_vehicle\_idling\_requirements\_July 2016*. Idling restrictions shall be enforced by highly-visible posting at the

MARIPOSA INDUSTRIAL PROJECT  
ENHANCED MEASURES

<p>site entry, posting at other on-site locations frequented by truck drivers, conspicuous inclusion in employee training and guidance material and owner, operator or tenant direct action as required.</p> <p>AMM AIR-8: Electric Truck Charging: At all times during project operation, owners, operators or tenants shall be required to provide electric charging facilities on the project site sufficient to charge all electric trucks domiciled on the site and such facilities shall be made available for all electric trucks that use the project site.</p> <p>AMM AIR-9: Project Operations, Food Service: Owners, operators or tenants shall establish locations for food or catering truck service and cooperate with food service providers to provide consistent food service to operations employees.</p> <p>AMM AIR-10: Project Operations, Employee Trip Reduction: Owners, operators or tenants shall provide employees transit route and schedule information on systems serving the project area and coordinate ridesharing amongst employees.</p> <p>AMM AIR-11: Yard Sweeping: Owners, operators or tenants shall provide periodic yard and parking area sweeping to minimize dust generation</p> <p>AMM AIR-12: Diesel Generators: Owners, operators or tenants shall prohibit the use of diesel generators, except in emergency situations, in which case such generators shall have Best Available Control Technology (BACT) that meets CARB's Tier 4 emission standards.</p> <p>AMM AIR-13: Truck Emission Control: Owners, operators or tenants shall ensure that trucks or truck fleets domiciled at the project site be model year 2014 or later, and maintained consistent with current CARB emission control regulations.</p> <p>AMM AIR-14: All tenant lease agreements for the project site shall include a provision requiring the tenant/lessee to comply with all applicable requirements of the MMRP, a copy of which shall be attached to each tenant/lease agreement.</p>
<p>AMM AIR-14 (continued): SmartWay: Owners, operators or tenants shall enroll and participate the in SmartWay program for eligible businesses</p>
<p>AMM AIR-15: Designated Smoking Areas: Owners, operators or tenants shall ensure that any outdoor areas allowing smoking are at least 25 feet from the nearest property line.</p>
<p>AMM AIR 16: Project construction shall be subject to all adopted City building codes, including the adopted Green Building Standards Code, version July 2022 or later. Prior to the issuance of building permits, the applicant/developer</p>

<p>shall demonstrate (e.g., provide building plans) that the proposed buildings are designed and will be built to, at a minimum, meet the Nonresidential Voluntary Measures of the California Green Building Standards code, Divisions A5.1, 5.2 and 5.5, including but not limited to the Tier 2 standards in those Divisions, where applicable, such as the Tier 2 advanced energy efficiency requirements as outlined under Section A5.203.1.2.</p>
<p>EMM AG-1: The project shall participate in and comply with the City's Agricultural Lands Mitigation Program, under which developers of the property shall contribute agricultural mitigation land or shall pay the Agricultural Land Mitigation Fee to the City.</p>
<p><b>The City and Applicant will revise the proposed Development Agreement to provide the following:</b></p>
<p>In the DA text and in Exhibit B, to clarify that cold storage facilities are prohibited on the site and transport refrigeration units (TRUs) may not enter the site. In the DA text provide that any future proposal to construct cold storage facilities on the site or to allow TRUs to enter the site would require an amendment to the Development Agreement that shall be deemed and processed as a Major Modification to the Development Agreement, an application to the City for a conditional use permit, and be subject to review under the California Environmental Quality Act and Stockton Municipal Code Chapter 16.168.</p>
<p>Section 8.3 of the DA will be revised as follows:</p> <p><b>8.3 Mitigation Measures.</b> Developer agrees to and shall comply with all applicable mitigation measures attached hereto as Exhibit C and with all applicable mitigation measures in the MIP EIR, as described in the Mitigation Monitoring/Reporting Program approved by the City on _____, 2023. Developer shall include in all tenant lease agreements for the project site a provision requiring the tenant/lessee to comply with all applicable requirements of the measures in this Section 8.3, a copy of which shall be attached to each to each tenant/lease agreement.</p>
<p>Section 10.1 of the DA will be revised as follows:</p> <p><b>10.1 Annual Review.</b> As required by California Government Code Section 65865.1 and pursuant to Section 16.128.110 of the Development Agreement Ordinance, the City of Stockton Planning Commission shall review</p>

MARIPOSA INDUSTRIAL PROJECT  
ENHANCED MEASURES

this Agreement and all actions taken pursuant to the terms of this Agreement with respect to the development of the Project every twelve (12) months at a duly-noticed public hearing to determine good faith compliance with this Agreement (“Annual Review”). Specifically, the Annual Review shall be conducted for the purposes of determining good faith compliance with the terms and/or conditions of this Agreement, including compliance with the mitigation measures in Section 8.3 of this Agreement. Each Annual Review shall also document the status of Project development. In the event the Planning Commission recommends modification or termination of this Agreement in connection with such Annual Review, the action to effectuate such modification or termination must be taken by City Council.

In the DA text, to require the City to coordinate with the County to develop and install signage prohibiting non-emergency vehicle access to the project site from Clark Drive or Marfargoa Road. The Applicant will be responsible for the costs of the signage determined to be appropriate by the City and the County.

In the text, to require the following:

Construction plans shall include a 10-foot by 65-foot landscaped berm along the 623-lineal foot and 493-lineal foot portions of the west line of the site, located north and south of Marfargoa Road, which will be required by and shown on Exhibit B to the Development Agreement. Landscaping of the berm shall include fast-growing evergreen trees to provide maximum visual screening, as determined by a qualified landscape architect. Construction plans shall also include a 10-foot wall along the 881-lineal foot and 1,316-lineal foot portions of the west line of the site, located north and south of Clark Drive, which will be required by and shown on Exhibit B to the Development Agreement. Construction plans shall also identify a 60-foot “no truck” zone along the entire length of the west line of the site, which will be required by and shown on Exhibit B to the Development Agreement. Construction plans shall also identify and prohibit building construction within a setback area located a minimum of 300 feet from the property line of residential properties along Marfargoa Road and Clark Drive. Notwithstanding the foregoing, the stairwells of ancillary/accessory buildings may encroach into the 300-foot setback area.

In the text, to provide that, prior to the issuance of a grading permit, the Applicant will provide \$200,000 to a non-profit organization serving disadvantaged residents of San Joaquin County approved by the City’s Community Development Director, to fund a program to reduce exposure to emissions and noise from vehicle and truck traffic and industrial operations, for residents located within the geographic area bounded by Munford Avenue, Mariposa Road, Little John’s Creek and the SR99 Frontage Road. The program may fund or reimburse home air filtration systems, HVAC

MARIPOSA INDUSTRIAL PROJECT
